

Instructions

- 1 Cut out the sheet along the heavy lines. Then cut out the 'day marker' strip.
- 2 To make the 'day marker': Cut out the strip and fold it in half along the dotted line; cut out the square to make a 'window'; unfold the strip and fold along the solid lines.
- 3 Place the 'day marker' around the calendar as shown, and tape the strip together, making sure the tape does not stick to the calendar.
- 4 Move the 'day marker' so that today's name shows in the window. In the box to the left of 'today', write or draw something that happened yesterday, then thank God for this using the prayer on the 'day marker'.
- 5 Now look at the days that are still in the future and thank God that he knows what will happen then, using the prayer on the marker again.
